Objectives

The Asia Pacific Autism Conference is a biennial regional conference which provides tremendous opportunities to gather members of the international autism community from across the region and from around the world to reflect aspiration towards achieving quality of life for all individuals with autism and their families. The conference will bring together people on the autism spectrum, family members and carers, disability service providers, advocates, researchers, teachers and educators, allied health professionals, employers and employer groups, policy maker as one community, explore how improve the quality of life for individuals on the spectrum and their families across the lifespan. Their strengths, interests and talents will be celebrated at the Conference.

Participants will learn more about the latest in autism research and global best practices in the field. This Conference seeks to inform participants of the progress made internationally in the development opportunities and provisions for the autism community and to empower them with the knowledge and skills to help them thrive and be successful in life. In addition, the conference theme covers Physical and Emotional Well-being, Lifelong Education and Learning, Social Relationships and Participation, Independence and Employment, Families and Autistic Individuals so that enhance the workers in rehabilitation service Hong Kong with knowledge and practical experience.
